

## Thorntons- New Store Concept

Illuminaire Displays Ltd are proud to be associated with the development of a Point of Sale shelf lighting solution, for the Thorntons NSC in store concept. IDL worked closely with the design teams at Thorntons PLC and Sandoms Interiors, to evolve a tailor made lighting solution to suit all shelf sizes and display arrangements.

The LED fixtures are unobtrusive. Shelving may be removed and relocated safely on a “plug & play” basis. The result is a modular, versatile illuminated POS solution.

LED lighting pendants, finished in the client corporate colour, are added over the servery stations.
